

Mean, Median and Mode

Name: _____

The **mean** is the total shared out evenly. The **median** is the middle value once they are in order. The **mode** is the value that appears most often.

Day	Monday	Tuesday	Wednesday	Thursday	Friday
Books read	14	9	17	12	20

1. What is the total?

2. What is the mean?

3. Put the numbers in order. What is the median?

4. Is there a mode? Explain your answer.

Mean, Median and Mode — Answer Key

1. 72

2. $72 \div 5 = 14.4$

3. 9, 12, 14, 17, 20 — the median is 14

4. There is no mode: every value appears once. Accept any answer that says so and explains why.
