

# Compare and Contrast

Name: \_\_\_\_\_

Two things, side by side. Pick a pair you know: two sports, two seasons, two places you have lived.

|                    | First thing | Second thing |
|--------------------|-------------|--------------|
| Name               |             |              |
| How they are alike |             |              |
| Different: point 1 |             |              |
| Different: point 2 |             |              |
| Different: point 3 |             |              |

Two ways to organise it: take one thing at a time, or take one point at a time and compare both. The second is harder and usually reads better.

Write two paragraphs using your plan.
